TEXAS 4-H PHOTOGRAPHY WORKSHOP AND PHOTOGRAPHY JUDGING CONTEST!
Micah Holcombe, mholcombe@ag.tamu.edu

New Topics! New Contest! You wanted it – you got it! Based on feedback from previous workshops, we’ve shaken things up a bit by providing different instruction and a brand new contest. Make plans to attend this two day workshop on July 20-21st in Bell County.

This year’s photography workshop will concentrate on careers in photography such as portrait, internet/design, commercial, newspaper, outdoor/magazine, sports, forensic, wedding, and video production. You will have a chance to select several of these careers along with a basic and intermediate/advanced level class.

We will also be doing a state-wide community service activity, making photo note cards for your favorite charity or church. Bring 5-10 of your own photos (3x5 or 4x6 size) and we will provide the instructions and mounting materials. You will have a chance to either donate your photos to Bell County for distribution or take your photos with you to donate in your local community. Assisted living facilities, Veteran’s Homes, Nursing homes, and churches especially love receiving beautiful cards made by talented 4-H photographers!

Ever wonder how the judges decide what photo is best? Come to the workshop and learn what judges look for, then practice being one yourself. After instruction and practice, there will be a State 4-H Photography Judging Competition for Junior (8-13) and Senior (14-18) age categories.

Sunday morning caps the event off with hands-on practice at a local farm. Costumed role players, antique equipment, animals, and various activities will offer a large assortment of photography opportunities. We will wrap up by 11:00 to allow for travel, church or other family activities.

Educational programs of the Texas A&M AgriLife Extension Service are open to all people without regard to socioeconomic level, race, color, sex, disability, religion, age, or national origin.
Registration is now open on 4-H CONNECT and is limited to the first 100 youth and adults. For more information visit the workshop website at: tiny.cc/4j2zvw.

TEXAS 4-H SCIENCE REGIONAL ROBOTICS CONTEST

Annie.May@ag.tamu.edu

Four youth from Bronco Youth Center on Fort Hood, Texas, represented Texas Military 4-H Tech Wizards and Army Child, Youth and School Services at the Texas 4-H Science Regional Robotics Competition held at Baylor University. The team (Bronco Facilitators) placed 1st place in the intermediate age division. The youth were the first Fort Hood CYSS youth to ever win a robotics competition.

The youth spent three months preparing for the contest. They worked as a team to design, build and program the robot to complete the missions. Along with the robot game, the contest also included a presentation and technical interview. Their presentation was a skit based around an emergency room. The youth played doctors who were trying to treat a patient that was severely injured. The youth then described a robot that they invented that can be shrunk down and injected into the patient and perform multiple surgeries.

During the technical interview, judges ask the youth questions on their design, build and programming processes as well as other information about their robotics project. This gives the youth the opportunity to showcase what they have learned during their robotics projects.

After the awards ceremony, the youth were given a private tour of the Baylor University campus by a Baylor Student. They got to visit the Baylor Bear’s mascots; two black bears name Lady and Joy. After spending time learning about their history and information about the Bears the youth then got to hang out in the common grounds areas around campus and see other students preparing for finals. They also got to tour the Cashion Business Building and the Student Center.

DISTRICT 9 4-H SUPPORTS MILITARY KIDS

Brigid Mejia, blmejia@ag.tamu.edu

The 4-H clubs of District 9 wanted to do something special to honor our Military Kids, what better way to recognize these amazing children than with a brand new bike. The District 9 4-H council members set out to collect 100 brand new bikes
and helmets to give to military kids in appreciation of “Month of the Military Child.” After months of fundraising and building community support, they collected over 140 brand new bikes to present to kids that have a parent serving in the military. On Saturday, April 27, a total of 67 extraordinary Military Youth came to Alvin Community College to accept their band new bikes. The excitement was felt by everyone that attended this very special day of recognition and support for our young heroes.

“Thank you for doing this for the kids, it so special for them to be honored.”- MSgt Todd Wilson, Air National Guard

**ROUND ROCK EXPRESS – MILITARY YOUTH APPRECIATION**

Brigid Mejia, blmejia@ag.tamu.edu

On Thursday, April 4th the Round Rock Express baseball team partnered with Operation: Military Kids to host a military appreciation night. During the weeks before the game, 300 tickets were reserved by military families who called in to request their free tickets to the season's opening night, donated as a courtesy by the Round Rock Express. About 125 families attended this exciting game and were greeted by the OMK team and news cameras from FOX news who interviews the military personnel and their families for a TV segment! All Military Youth were lined up prior to the game; by the time everyone was on, they had created a line all along the infield with the color guard residing in the middle to present the colors for the evening's game. After a great rendition of the Star Spangled Banner, everyone was escorted off of the field and allowed to enjoy their free seats, great food and some happy memories! A big thank you goes out to the Round Rock Express for being a fantastic partner to OMK, we cannot thank them enough for their generosity!

**NIXON ELEMENTARY CELEBRATES PURPLE UP!**

Brigid Mejia, blmejia@ag.tamu.edu

Nixon Elementary celebrated Purple Up by learning about a footlocker loaned to them by the Museum of the American Military Family out of Albuquerque, New Mexico. Stacey Weyngandt, military liaison, shared with the students the history of the items in the footlocker and the significance of the program. The footlocker is a traveling museum and is full of items from all over the world. It helps the youth get a glimpse into military life. She discussed having the military families at the school put together a footlocker of items to be sent to the museum, which will be a project that Nixon Elementary will complete during the rest of the semester. The youth decorated the front of the school by drawing on the sidewalk and tying purple ribbons all over the campus as a way to show the military youth at their school that their peers support them.
