

52 Week Savings Challenge

Need to see growth early? Start with \$52 the first week and decrease over time, seeing how your money grows, you might change your mind and hover at an amount that is comfortable for you. Either way, are good ways.

Keep this chart in a place you look at every day so that you can track your savings progress using its simple program. Deposit the recommended amount each week and mark it in the “Deposit Complete” column.

Choose how you would like to start. You can start at \$52 and work backwards, the amounts will be different. The key is for your savings to grow.

NOTE: The account interest rate will change the accumulated amounts.
