

**Congratulations to Dr. Zhuping Sheng,  
newly appointed  
Board Director, American Water Resources Association**

AWRA is a nation organization with a mission to advance multidisciplinary water resources education, management and research. Dr. Sheng, an expert in the field of Hydrology, will begin his Board of Directors term in January, 2019.

Dr. Sheng is the El Paso AgriLife Research Center Director and leads the Hydrology and Water Research Program. His current research focus is:

Hydrological Processes of River Systems in Arid and Semi-Arid Regions  
Dynamics of Aquifer Systems  
Integrated Water Resources Management  
Interactions of Atmospheric, Surface and Subsurface Waters
